

JR-Oils Oy

Hydraulics and Pneumatics

Quality as our service for over 20 years

Assembly · Maintenance · Repairs · Design · Spare parts · Sales

Do not let the malfunctioning machinery get in the way of doing business.

More than 70% of spare parts sold for hydraulic plant and machinery are used to replace defective components. The cause of 90% of these defects can be traced to improper operation or maintenance.

Uninterrupted, smooth, and efficient operation is not possible without fully operational equipment and machinery. Our company provides **hydraulic hoses, cylinders, pumps, valves, compressors, hydraulic power units, spare parts, equipment and machinery for hydraulics and pneumatics.**

Our on-call maintenance duty answers 24 hours a day at 0400 275 133

-  Assembly, repair, and overhaul of plants and machinery
-  Design service (hydraulics, pneumatics, power transmission)
-  Hydraulic pumps, -motors, -valves, -cylinders, and -accumulators
-  Compressors, pneumatic valves and -motors

-  Hydraulic- and pneumatic hoses and -pipes
-  Hydraulic- and pneumatic piping installations and -systems
-  Production plant shutdown services
-  Scheduled and preventive maintenance
-  Overhauls and inspections of fork-, scissor-, and trailer lifts

We offer our professional expertise in maintenance, overhaul, and diagnostic measurements and readjustments for your usage.

-  Our overhaul service includes hydraulic pumps and -motors, valve packs, hydraulic accumulators and compressors.
-  We provide interval maintenance services, including oil and filter changes.
-  We measure and adjust systems and machinery; contact us if you suspect functioning of your system or machinery.

Our clients are operating mainly in the field of, paper and forestry, mechanical and industrial production, and mobile work machine users. Fully functional equipment in addition to proficient personnel forms the foundation of successful business; we enable you with both. Prolonged downtime of machinery adds only your worries, not your profits.

Contact us. We can solve the problem.
